— Easy-to-add solutions

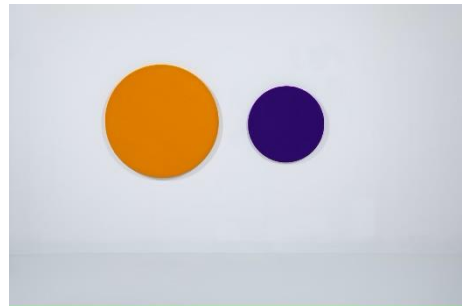

BuzziTile

Graphical acoustic wall element to create a highly graphical feature on the wall. It can integrate BuzziSkin or be a more powerful alternative to it.

BuzziTab Soft and Buzzi Key Soft

A chic sound-dampening wall treatment designed with acoustically well-balanced spaces in mind. Alternative to BuzziBlox wall mounted, square and rectangular.

BuzziPebbl

Inspired by the smooth shape of a pebble, BuzziPebbl absorbs sound waves while creating a serene environment. Wall mounted or ceiling suspended. Also available with backlight when wall mounted.

— Easy-to-add solutions

BuzziNest

Silent workspaces anywhere, for 1 up to 4 people. Privacy and acoustic comfort for everyone in open spaces.

BuzziTotem

This playful freestanding acoustic pillar is a moveable, fabric-covered column, which acts as a fun play on the traditional architectural detail. Possible functional alternative to BuzziPlanter.

BuzziCube

Encourage interaction with this upholstered pouf. Made from soft acoustic foam, it makes sitting a pleasure for both eyes and bottom.

Thank You
