Independent Monitor

Wireless and mobile:
An innovative form of presentation

The Independent Monitor:
An innovative form of presentation

Whether in presentations, video conferences or on websites: sharing visual content with colleagues, customers and partners is key to the world of work today.

The Independent Monitor by BACHMANN provides a whole new level of flexibility when it comes to such teamwork: the battery pack means the monitor can be used wherever it is needed, irrespective of rigid infrastructure such as sockets, network connections or cabled devices.

It is easy to operate and, thanks to a battery life of 6 to 8 hours, can be used to present information wirelessly for an entire working day.

The status display built into the battery pack lets you keep an eye on how long the Independent Monitor has left to run at all times. The batteries can be fully charged overnight, thus guaranteeing reliable, efficient operation during the day.

A high-resolution display and integrated loudspeakers present audio and video content at a high quality.

Maximum functionality:
Plug-and-play solution can be operated flexibly, easily and reliably by various users

Maximum mobility:
Can be placed anywhere in the room thanks to its battery pack – no more annoying cables

Long battery life:
6–8 hours of wireless presentations and/or digital signage

Compatibility:
Can be equipped with various technical components such as Wi-Fi presentation systems, digital signage players or mini PCs

Electronic height adjustment:
At the perfect height, whether sitting or standing

Overview of the configuration options

Do you want to configure your independent monitor to suit your requirements
and use it in various situations?
BACHMANN offers many options to fulfil your wishes.
