

iotspot

The office of tomorrow – available today for employees and facility managers.

Do you know the real extent of workplace utilisation in your building? Or perhaps you already have a desk-sharing model, but one where actually finding a place to work is difficult? It's a real nightmare for employees. And for employers? That's easy: expensive office space standing empty.

With iotspot integrated into a BACHMANN design connection panel, such as the DESK 2, it is quick and easy to search for, find and reserve workstations. And facility managers will receive detailed data and analyses on workplace utilisation, yielding valuable knowledge for cost optimisation.

BENEFITS

- **2 in 1: Connection panel and workplace management in one**
- **Informative facility dashboards**
- **No need for IT network integration**
- **Quick and easy set-up**
- **Intuitive app**

Turn the office into your employees' favourite place.

DESK 2 power strips with an integrated iotspot module – black, similar to RAL9005

- Material: Profile: Aluminium | Socket: Plastic
- Tabletop thickness: 10 - 40 mm

Without device supply cable | Power input: 0.2 m with GST18 | Incl. mounting bracket
