cerasonar

Hello Christina

how are you doing? We have some big news to share!

The most powerful exciter-based loudspeaker just entered the market!

Our new cerasonar 6062 reference pro is based on our top-selling reference series with enhanced maximum level performance and sound pressure curve.

It is characterised by its high power handling, max. SPL and low weight. Music reproduction remains crystal clear and distortion-free even at the highest volume levels. Given these features, we particularly advise them for **larger home cinemas or even large club rooms.**

Take care,

Ulrich

Full audio performance even in challenging substructures

150 w RMS (300 w max)

Impedance 8 ohms

Frequency range 65 - 20.000 hz*

Dimensions 60,0 x 62,0 x 5,8 cm

Weight 2,5 kg

Drywall 1- or 2-layered 12,5 mm plasterboard

CAD details:

* depending on installation situation

When perfection is key

The cerasonar reference series is based on our patent-pending Mode Control Correction (MCC) system, which ensures a **natural sound** by correctly damping mode interference.

Thanks to your feedback ...

... we can constantly improve our service. Some of you have asked for further information material that you can pass on to your customers. Our design team has therefore prepared a small leaflet for inspiration. Please reply to this email so we can send you the first selection.

Thank you for your trust and passion!
