

TIPSTER DISINFECTION HOLDER

Helps keeping the workplace healthy.

The SMS Tipster Disinfection Holder will help maintaining the hygiene in the office, lobby or any other common space.

This clever holder is a simple tool for keeping the workplace healthy. A perfect match for disinfection pump bottles of different sizes and shapes, and it works just as well for an automatic dispenser (screw holes are already prepared for DAX dispenser model AD139).

The SMS Tipster Disinfection Holder has a hassle-free drip tray in stainless steel included, which can easily be removed and washed. The sleek attachment of the SMS Tipster Disinfection Holder to the SMS Tipster 2 Floorstand will add a clean look to the solution.
