

LEDDY FREE

A touch of Scandinavia

Giving your LED display a smart furniture feel

SMS Leddy is a flexible product that can easily adapt to new configurations and all-in-one LED display solutions. These pre-configured stands are designed to fit many of displays from the leading LED manufacturers. An elegant Scandinavian design with a wooden frame makes it easy to integrate the product with the surrounding environment. SMS Leddy comes extensively pre-mounted for easy installation and is ADA compliant.

SMS Leddy Free is the elegant freestanding version, looking good also from the back thanks to the discrete back cover. As an accessory, choose leg inserts with wooden finish (not incl.), to get that high end furniture touch and feel.
