

FUNC MOBILE MOTORIZED

Flexible & Ergonomic

Func Mobile Motorized is easy to adjust for different needs. The very stable design is perfect for large heavy displays and touch-sensitive displays. The motorized height adjustment ensures the user to present or interact with the display in an ergonomic position, whether very tall, short, standing up or sitting down. Thanks to the wheels, it is easy to move the unit between different rooms. In other words, perfect for places where the display will be the center of attention for people with different needs. The design includes a storage box for e.g. mini PC, codec or laptop, easily accessed from the front. The box can be locked with a padlock (not supplied).
